# Complete Fragments

for Pipe Organ

by Paul Schuette

## Program Note

*Complete Fragments* is based on a mobile by Alexander Calder entitled *Steel Fish*. The mobile itself has many qualities that made it an enticing point of departure for a musical form. Each section of *Complete Fragments* is a translation of one of the mobile's pieces which draws upon the color of the piece and other physical properties such as weight and relative position. Despite these aspects which were directly borrowed from the mobile, the musical language creates its own integrity and sense of balance by way of materials which expand and contract in all directions. The most paradoxical trait of the mobile itself is the fact that it balances around a fulcrum point even though each half of the mobile is not symmetrical: giving the fact that the mobile balances at all a mysterious quality. In this way, the mobile served as an impetus for a piece of music which, despite a piecemeal and asymmetrical journey, is, I hope, ultimately perceived as balanced and complete. In the end, this is the aspect which the piece relies upon the original model for most intensely and is also the measuring stick by which I will leave it to you, the audience, to determine whether anything has been lost, or perhaps gained, in translation.

## Performance Notes

Accidentals are good for only one note - not an entire bar.

This piece is performable on both mechanical and electrical instruments, and on instruments with or without enclosed pipes. Notes are made within the score about how to adapt the piece to various instruments.

In most instances, especially on mechanical instruments, an assistant will be required to assist with turning the instrument's air supply on and off when indicated. On instruments without combination action, multiple assistants may be required to aid in changes of registration.

The sections may be played in any order with the following exception:

If the piece is begun with a X section, all other X sections must be played before moving on to the Y sections and vice versa.

Each section should not be treated like a traditional movement. i.e. Do not let go of the audience's attention, but do allow a short 2-3" pause between sections.

# Y

## 8' Principals (Strings)

Dynamics indicated for the Swell should be achieved with the Swell Box.

*p* = closed and *mf* = open

Volume of Swell with Swell Box open should match the volume of the Great.

Great and Swell differ slightly timbrally

On instruments without enclosed pipes, only change registration in m. 6.

Musical score for Swell and Great pipes, measures 1-4. The tempo is marked as ♩ = 60. The Swell part (treble clef) starts with a *mf* dynamic and features a melodic line with a slur over measures 1-4. The Great part (bass clef) starts with a *mf* dynamic and features a rhythmic pattern of eighth notes with 3:2 ratios. The Swell part has three 3:2 ratios in measures 3 and 4. The Great part has three 3:2 ratios in measures 1, 2, and 3. The Swell part has a *p* dynamic in measure 4.

Musical score for Swell and Great pipes, measures 5-8. The tempo is marked as ♩ = 100. The Swell part (treble clef) starts with a *molto rit.* marking and features a melodic line with a slur over measures 5-8. The Great part (bass clef) starts with a *f* dynamic and features a rhythmic pattern of eighth notes. The Swell part has four 3:2 ratios in measures 5 and 6, and a *SUS.* marking in measure 7. The Great part has a *f* dynamic in measure 5, a *p* dynamic in measure 6, and a *mf* dynamic in measure 7. The tempo changes to *a tempo* in measure 7. The Swell part has a *mf* dynamic in measure 8. The Great part has a *mf* dynamic in measure 8.

*f* dramatic change in registration

original registration

Musical score for Swell and Great pipes, measures 9-10. The Swell part (treble clef) starts with a *rit.* marking and features a melodic line with a slur over measures 9-10. The Great part (bass clef) starts with a *rit.* marking and features a rhythmic pattern of eighth notes with 3:2 ratios. The Swell part has three 3:2 ratios in measures 9 and 10. The Great part has three 3:2 ratios in measures 9 and 10.

# Y

4' Hollow, distant (Flutes)

Dynamics indicated for the Swell should be achieved with the Swell Box.

*pp* = closed and *mp* = open

The Great and the Swell should differ as little as possible timbrally and be equal in volume with the Swell Box open.

On instruments without enclosed pipes, do not make any changes to registration and observe the balance indicated in m. 1.

$\bullet = 60$  with motion

Musical score for Swell and Great organs. The Swell part starts with a dynamic of *pp* and changes to *mp*. The Great part starts with a dynamic of *mp*.

4

Musical score for Swell (S.) and Great (G.) organs. The Swell part starts with a dynamic of *pp*.

# Y

Each space on the Stop Rhythm staff represents a different registration:

1 = *ff* 2 = *mf* 3 = *mp* 4 = *pp*

Changes should ideally be achieved via pistons located beneath the manuals.

Each setting should share stops with the ones adjacent to it.

For example, setting 2 should share stops with 1 and 3, but 1 and 3 need not have any stops in common.

The full range of stops available to the Pedal may be employed.

On an electric instrument, where the motor effect is not possible, the 4 registrations should consist of the lowest and softest stops available.

♩ = 100

Stop Rhythm

Pedal

Motor

\* Rhythm can be modified as needed so that some sound returns before the motor is switched off.

S. R.

P.

M.

# Y

Bright, brassy - i.e. Solo Reeds, mutations

Dynamics indicated for the Swell should be achieved with the Swell Box.

*p* = closed and *f* = open

On instruments without enclosed pipes, only change registration in m. 6 and revert to original registration in m. 7 as indicated by the dynamics within parentheses.

Musical score for Swell and Great pipes, measures 8-11. The Swell part is in treble clef, and the Great part is in bass clef. The key signature has one flat (B-flat). The tempo is marked  $\text{♩} = 60$ . The score includes dynamics *mp*, *f*, *subito p*, and *f*. Performance markings include *accel.*, *a tempo*, and *rit.*. A triplet of eighth notes is marked with a '3' in measure 10. A double bar line is present at the end of measure 10.

*pp* \* Begin with the Swell Box closed, however, the dynamic of the Swell (with the Swell Box closed) should balance with the Great as indicated.

(*f*)

Musical score for Solo (S) and Great (G) pipes, measures 7-10. The Solo part is in treble clef, and the Great part is in bass clef. The key signature has one flat (B-flat). The tempo is marked *a tempo*. The score includes dynamics *f* and *p*. Performance markings include *rit.*. A double bar line is present at the end of measure 10.

(*p*)

Swell: distant (Flutes)

Great: full (Principals)

On electric instruments, do not turn the motor on/off.

Pedal: present, punchy (32', 16', 8', 4')

♩ = 120 *mechanical - with strict rhythm throughout*

Musical score for Swell, Great, and Pedal parts, measures 1-10. The Swell part is marked *mf* and features a melodic line with accents. The Great part is marked *f* and features a rhythmic accompaniment. The Pedal part is marked *ff* and features a rhythmic accompaniment. A dynamic marking *mf* is also present in the Swell part.

\* Modify rhythm as needed so that the written rhythm is heard throughout.

Musical score for Swell, Great, and Pedal parts, measures 11-15. The Swell part is marked *p* and features a melodic line with accents. The Great part is marked *p* and features a rhythmic accompaniment. The Pedal part is marked *p* and features a rhythmic accompaniment. A dynamic marking *mf* is also present in the Swell part. A motor control diagram is included, showing a sequence of notes: a whole note (C), a quarter note (x), a quarter note (off), a quarter note (---), a quarter note (---), a quarter note (---), a quarter note (o), and a quarter note (on).

Musical score for Swell, Great, and Pedal parts, measures 16-20. The Swell part is marked *mf* and features a melodic line with accents. The Great part is marked *f* and features a rhythmic accompaniment. The Pedal part is marked *ff* and features a rhythmic accompaniment.

Musical score for Swell, Great, and Pedal parts, measures 21-25. The Swell part is marked *mf* and features a melodic line with accents. The Great part is marked *f* and features a rhythmic accompaniment. The Pedal part is marked *ff* and features a rhythmic accompaniment.
